INTRODUCTION

This directory is divided into two sections. Section 1 lists (alphabetically, by country) mining-related government departments and organizations (including parastatals), while Section 2 lists mining companies (alphabetically) operating in Africa, mainly outside South Africa. It must be borne in mind that the lists in both sections might not be comprehensive. Organisations and companies are requested to report errors, omissions and updates to the author, whose contact details are given on the first page of this publication. An improvement of this directory is dependent on such feedback.
