## **FOREWORD**

This directory is an update of previous editions, and lists operating mines, quarries, agents and mineral processing plants in the Republic of South Africa.

The mines are grouped according to main commodity produced. Names of mines, their owners, postal addresses, telephone and fax numbers, commodities mined, entity type, type of mine, magisterial district, province and location are shown.

Thanks are due to various staff members of the Directorate Mineral Economics and Statistics who contributed to the update of the information.

January 2023

**Mr TR Masetlana**  
**Director**

# CONTENTS

## PAGE

<b>FOREWORD .....</b>	<b>i</b>
<b>EXPLANATORY NOTES .....</b>	<b>iv</b>

## **PART ONE: PRECIOUS METALS AND MINERALS**

Diamonds.....	1
Gold .....	45
Platinum-group metals (PGM) .....	51
Semi-Precious Stones .....	56

## **PART TWO: ENERGY COMMODITIES**

Coal .....	59
Natural gas .....	76
Petroleum .....	76
Uranium .....	76

## **PART THREE: NONFERROUS METALS**

Copper.....	77
Lead.....	77
Lithium .....	77
Nickel.....	77
Rare Earth Metals .....	77
Titanium.....	77
Zinc.....	78
Zircon.....	78

## **PART FOUR: FERROUS METALS**

Chrome .....	79
Iron-Ore .....	83
Manganese .....	84

## **PART FIVE: INDUSTRIAL MINERALS**

Andalusite .....	88
Attapulgit .....	88
Bentonite .....	88
Brickmaking shale.....	88
Brickmaking clay.....	89
Corundum .....	99
Dimension Stone Granite.....	100
Dimension Stone Other.....	105
Dimension Stone Sandstone .....	105
Dimension Stone Slate .....	105
Feldspar .....	107
Fireclay .....	107
Flintclay .....	108
Fluorspar.....	108
Gypsum .....	108
Kaolin.....	109
Kieselguhr.....	109
Limestone .....	110
Magnesite .....	113
Mica .....	114
Perlite .....	114
Phosphate.....	114
Plastic Clay.....	114
Pyrophyllite .....	114
Salt .....	115
Silica .....	117
Sillimanite .....	119
Sulphur .....	119
Talc.....	120
Wollastonite .....	120

## **PART SIX: AGGREGATE AND SAND**

Aggregate .....	121
Sand .....	151

## **PART SEVEN: PROCESSED MINERALS**

Aluminium .....	176
-----------------	-----

Antimony Trioxide .....	176
Chromium Alloys.....	176
Manganese Alloys .....	177
Manganese Chemicals .....	177
Manganese Metal .....	177
Phosphoric-Acid.....	177
Silicon Alloys.....	178
Vanadium Alloys .....	178

## **RECENT PUBLICATIONS BY THE DIRECTORATE: MINERAL ECONOMICS AND STATISTICS ..... 179**

Associated Government Departments .....	186
State Owned Enterprises .....	186
Other Mineral – Related Organisations.....	189

### **EXPLANATORY NOTES:**

1. Operating mines, quarries and processing plants are not necessarily in current production but are defined as establishments where activities are taking place. This could include pre-production development, sales from stockpiles or rehabilitation programmes prior to formal closure. This definition is important since this directory conforms to the requirements of the Mine Health and Safety Act (Act No. 29 of 1996) as it is used, among others, by occupational health, hygiene and related practitioners. It should also be noted that some mining entities have been split into sub-units as required by the Mine Health and Safety Inspectorate of the Department.

2. Mineral processing plants are included on the basis that they: a) produce processed minerals included in the statistics of selected processed minerals compiled by the Directorate: Mineral Economics, and / or b) fall under the jurisdiction of the Department of Mineral Resources in terms of the Mine Health and Safety Act because they are situated on a licensed mining site. Processing plants and works that are situated on a mining site are classified as “Works OMS” (Works on Mining Site) in this Directory, as certain provisions of the Mine Health and Safety Act apply to such works. **Users of this Directory should note that works which are not on a mining site, and agents, are listed for information purposes. The Department of Mineral Resources does not have the regulatory authority over these entities that would apply to entities situated on mining sites.**

3. The **Mine Code**, listed in the first column, is a unique identification number linked to each operation by virtue of its physical location, and is changed only in exceptional circumstances. This mine code corresponds to the old MB Control Number and the SAMRASS Code, and allows the positive identification of an entity, regardless of name or ownership changes. The Directorate: Mineral Economics database system has recently been upgraded. In order to provide for future expansions and facilitate compatibility with other database systems, a five-digit Mine Code has replaced the old four-digit code. The five-digit Mine Code is identical, except that the first digit is now a one, which has been added in front of the old four-digit code, for example, the previous Mine Code 3456 will now be 13456.

**This page is intentionally  
left blank**

The list of mines and contact  
details have intentionally  
not been incorporated into  
the  
PDF file so as to maintain  
the spreadsheet functionality

Please refer to the Excel  
spreadsheets provided  
for the data on  
pages 1-178
